## Innovative Personalarbeit als Motor für ein modernes Europa

The EU's Steel Action Plan – the next steps

Gwenole Cozigou

Director

EC Directorate General Enterprise and Industry

The Commission presented on 11 June 2013 the Steel Action Plan COM(2013) 407

## The steel action plan – *6 areas of actions*

1. The right regulatory framework
2. Boosting demand for steel
3. *A level playing field* in terms of access to raw materials and trade
4. Energy, climate, resource and energy efficiency policies to boost competitiveness
5. Boosting Innovation
6. Easing restructuring and addressing skill needs

➤ High-Level Group (HLG) on Steel, established in October 2013

## 1. The right regulatory framework

Cumulative cost assessment for the steel sector done in June 2013 in order to assess the overall regulatory burden.

VAT evasion Directives

## 2. Boosting demand for steel

CARS 2020

Sustainable Construction

STAHL 2014  
Perspektiven mit Stahl | Perspectives with steel

## **3. A level playing field in terms of access to raw materials and trade**

Coking coal in the list of Critical Raw Materials  
Trade policy tools and instruments

## **4. Energy, climate, resource and energy efficiency policies**

Addressing climate policy-related issues  
Affordable energy prices and supply  
Carbon Leakage list 2015-19  
Environmental and Energy State Aid Guidelines

## **5. Boosting innovation**

EIP on raw materials

Horizon 2020 / RFCS / SPIRE

European Coal and Steel Fund

## **6. The social dimension: restructuring and skill needs**

Retraining and re-skilling

Promote youth oriented recruitment processes

European Globalisation Adjustment Fund (EGF)

## Next steps

Competitiveness proofing

Cars2020 and Construction2020

Dialogs with the main non-EU steel producing partners

Carbon leakage post 2020

Climate + Industrial Policy

Communication on Strategic Implementation Plan of EIP

2015 calls of Horizon2020
