on 10 November 2016 in Düsseldorf

in the CCD Süd Congress Center Düsseldorf

Stockumer Kirchstr. 61 | 40474 Düsseldorf, Germany

Steel Institute VDEh
German Steel Federation

Exhibitors/Sponsors

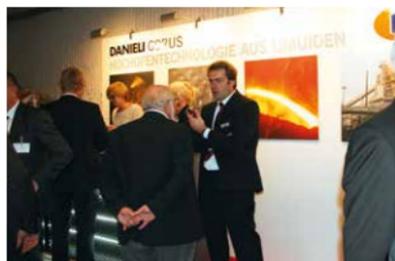

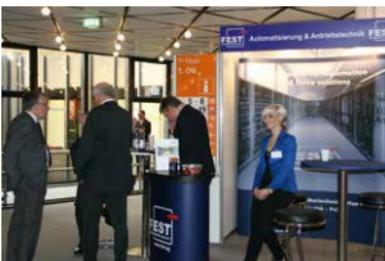

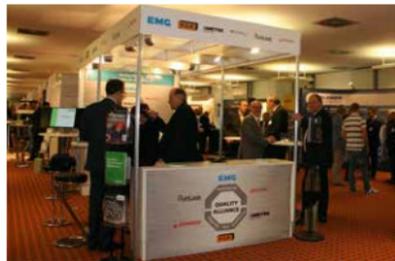

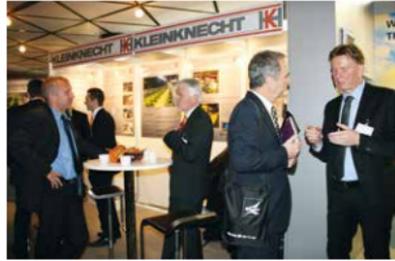

Once again, the **STAHL 2016** offers numerous opportunities for companies to present themselves and to make new business contacts. The event is made possible by the support and cooperation of different-sized businesses. At the **STAHL 2016**, small and medium-sized enterprises, as well as large corporations, share a common place of presentation.

With a minimum contribution payment of € 5,000, companies and organizations become patrons or sponsors of our International Annual Meeting.

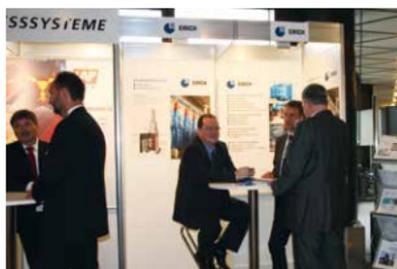

Sponsor benefits include:

- Company name listing in the meeting publications
- 'Steel Get-Together' invitation cards to selected customers and employees
- Presenting the company during the 'Steel Get-Together'
- Displaying your logo on the large projection screen, giveaways, table reservations and much more

During the past year, our team has designed and arranged powerful presentation possibilities. We will be pleased to develop with you a concept for **STAHL 2016** that is tailored to your needs.

Exhibitors/Sponsors

A concurrent trade and poster exhibition will be in progress in the hallways and the Pavillon of the CCD Congress Center Düsseldorf during the technical sessions held on 10 November 2016.

Exhibition booths:	2 sqm	€ 1,525
up to	5 sqm	€ 3,050
up to	10 sqm	€ 5,050
up to	20 sqm	€ 8,050
larger than	20 sqm	negotiable

For further information on possibilities of individually presenting your company to attending decision makers please contact:

Steel Get-Together

SCHMOLZ + BICKENBACH GROUP
Providing special steel solutions

The **Steel Get-Together** is the central meeting point. It provides excellent opportunities for exchanging ideas and creating new contacts in a pleasant atmosphere.

STAHL 2016

“Orientation in uncertain times” is going to be the motto of **STAHL 2016**. Eight steel dialogues will examine the following topics:

- Disruptions in the global steel market: Options for action for politics and the economy
- Industry 4.0 – digitization giving momentum to growth and change
- Limits and possibilities of flexibility in iron and steelmaking
- Lightweight solutions with the material steel
- Latest research cooperations in the field of forming technology
- Technological aspects of digitization in the steel industry
- Climate politics at the crossroads
- The acceptance of industry – the route to competitiveness and prosperity
